P RODUCT PROFILE

The product profile consists of process improvement additives, specialty chemical additives for boiler and cooling water treatment, effluent treatment and fuel additives catering to the requirements of various segments

T HE INDUSTRIES WE SERVE

Sugar	Bevarages	Distilleries
Pulp and Paper	Textiles	Power
Oilfield	Mineral Processing	Refinery
Automobiles	Pharma	Electronics
Edible Oil	Steel	Fertiliser

T HE PRODUCT RANGE

PULP AND PAPER

Retention Aids	Dry/Wet Strength Resin	Defoamers	Slimicides	Antiscalants /for Black Liquor
Enzymes	Deinking/De watering Additives	Lime Mud Dewatering Aid	Digester Additives	Wire & Felt Cleaning Additives

BOILER AND COOLING WATER TREATMENT CHEMICALS

Oxygen Scavengers	Alkalinity Builder	Sludge Conditioner	Multi-Guard Filming Amine	Neutralizing Amine
Antiscalants	Corrosion Inhibitors	Biocides	Bio-Dispersants	Scale Inhibitors

REVERSE OSMOSIS

Antiscalant	Membrane Cleaners	Biocide	Zero TDS pH Enhance	Antiscalant for Seawater
-------------	-------------------	---------	---------------------	--------------------------

FUEL TREATMENT

Coal Combustion Enhancer	Combustion Catalyst for Biomass	Multipurpose fuel oil additive	Furnace Oil Additive	Diesel Additive
--------------------------	---------------------------------	--------------------------------	----------------------	-----------------

WATER PRETREATMENT, SOLID WASTE & WASTE WATER MANAGEMENT

Coagulant	Flocculants	Decolorizing Agents	ETP/STP Cultures	Dewatering Flocculants
Odour Control Enzymes	Defoamer for Evaporator	Antiscalant for Evaporator	Culture for Composting	

TEXTILES

Wetting Agents	Enzymes	Non-Formaldehyde dye Fixing Agent	Peroxide Stabilizer	Polyacrylates
Acetic Acid Alternative	Buffering and Chelating Agents	Washing off Agents	Fabric Softner	Printing Thickener

DISTILLERIES

Enzyme for Fermentation Enhancement	Biocide for Contamination Control	Antiscalant for Spent Wash
Settling Aid for Fermented Wash	Preservative for Molasses	Descaling Chemicals for Heat Exchangers
Culture for Bio Composting	Defoamer for Fermentation	Defoamer for Spent Wash
Biocide for Algae and Slime Control	Cooling Water Treatment Chemical	Boiler Water Treatment Chemical

SUGAR PROCESS CHEMICALS

Enzyme for Dextran & Starch Control	Phosphoric Acid Replacement Polymer	Culture for ETP	Molasses Preservative
Fireside Additive for Coal and Bagasse	Resin for Refinery Process	Colour Precipitant	Floatation Aid for Refinery Process
